## SUMMARY

I am currently pursuing a BCA and have a good understanding of web development. I enjoy building responsive web applications using HTML, CSS, JavaScript, and React. I have worked on multiple projects that have improved my problem-solving and development skills, and I am eager to gain real-world experience and continue growing as a developer.

## PROJECTS

### Employee Management System (Full Stack)

- Built a full-stack web application to manage employee data, including adding, updating, and deleting records. Focused on creating a clean UI and smooth user experience.

### E-commerce Website (Full Stack)

- Developed a full-stack e-commerce application with features like product listing, cart functionality, and user interaction. Implemented **AI-based voice navigation** that allows users to move across different pages using voice commands. Worked on both frontend and backend to manage data and improve overall user experience.

### E-commerce UI (Static)

- Designed a static e-commerce website UI using HTML and CSS, focusing on layout, responsiveness, and clean design.

## SKILLS

HTML CSS JavaScript React Tailwind CSS

Node.js git & github

## EDUCATION

### Bachelor of Computer Applications (BCA)

Uttam Institute of Technology and Management
